INNOVATIVE SOLUTIONS
FOR YOUR MOLDS

MAXIMUM PERFORMANCE FOR MINI UNDERCUTS

ML MINI LIFTER

CHALLENGE SMALL-SIZED UNDERCUTS WITH CUMSA'S TRUSTY SOLUTION

UNDERCUTS

EN

GREAT ADVANTAGES

FULLY MECHANICAL SYSTEM

A simple and reliable lifter with a fully mechanical design. No flexible components, just a robust solution designed to simplify your mold and production process.

MINI SIZE

Its compact design requires minimal space on the ejector plates, making it ideal for small, multicavity and compact molds where installation space is limited.

WIDE RANGE OF APPLICATION

Designed to release undercuts up to 8º, with 3 different sizes of 4, 8 and 12mm width. Maximum stroke 6mm.

DLC READY

Choose the Mini Lifter with DLC coating or apply the coating at a later stage, once the undercut has been mechanized.
DLC coating offers increased wear resistance and cleanroom applications.
